

Silent Series LL

Focus G Proven-Now Available in White, Red and Blue

First introduced in the critically acclaimed Focus G Series cases from Fractal Design, the Silent Series LL fan was created to deliver illuminant style and excellent airflow at an admirable price.

In response to popular demand the Silent Series LL is now available separately with a choice three different LED colors, giving Focus owners and budget conscious builders the ideal solution to expand their system.

For those in search of a great LED fan, the Fractal Design Silent Series LL shines brightly as the clear choice for solid value.

- Clear blades for enhanced LED effect
- Extended length black stealth ribbon cable is easily hidden for a clean looking build
- Low noise sleeve bearing ensures silent operation
- Pressure balanced for improved performance in filtered vents
- Available with white, red or blue LEDs

Package contents

- Silent Series LL 120mm fan
- Screw pack with 4 metal fan screws

General specifications

| Specification | • Silent Series LL 120mm |
|--------------------------|-----------------------------|
| Size [mm] | • 120x120x25 |
| Rotational speed [RPM] | • 1200 |
| Colors | • Black frame, clear blades |
| LED Colors | • White / Blue / Red |
| Connector | • 3-pin |
| Cable Length | • 550mm |
| Bearing | • Sleeve |
| MTBF | • >30,000h |
| Input voltage | • 12V |
| Input power | • 1.44W |
| Max unput current | • 0.16A |
| Starting voltage | • 7V |
| Air flow (CFM) | • 41.8 |
| Air flow (m3/h) | • 71.0 |
| Static pressure (mm H2O) | • 0.87 |
| Noise level (dB(A)) | • 24.8 |
| Product weight (g) | • 96 |
